Part 2: Reading

Read the text. Listen to your teacher or use the online lesson to listen.

Summer is very hot now. In many countries, the weather is dangerous. Temperatures go up and up. Some places feel like 110 degrees! This is called a heat wave. A heat wave is many hot days together.

This summer, Europe is very hot too. Countries like Spain, Italy, Greece, and France often have heat waves in summer. Cities are hot. The sun is strong. Many tourists visit Europe in summer, but the heat can be a problem for them.

Hot weather is not safe for everyone. Old people and small children feel the heat more. Sick people feel the heat more too. It is important to drink water. It is important to stay in the shade. Some people use a fan or air conditioning at home.

Every year, summers get hotter. Scientists say the climate is changing. This means more heat waves in the future, in the USA, in Europe, and in other places too. We need to learn how to stay cool and safe.
